To Whom It May Concern:

When Progressive Contractors Association of Canada was looking to relocate its offices to the Southside of Edmonton we worked extensively over an extended period with realtor Ryan Brown. Ryan assisted us by helping to educate us on the commercial market, developed a plan that followed our preferences, and toured us through available properties in the area, focusing in great detail on our needs as an organization.

PCA ultimately selected a brand new facility and Ryan was not only instrumental in negotiating a lease with the landlord, but went the extra distance to assist us in some of the preliminary planning regarding our build out, and advised us on the ups and downs of the commercial construction planning we would encounter in our community.

We were exceptionally pleased with the service we received from Ryan and would highly recommend his highly knowledgeable and friendly services to anyone in the market for office space in Edmonton.

Sincerely,

Merron Pearce
Operations Manager
